

# COMIC PANEL LAYOUTS

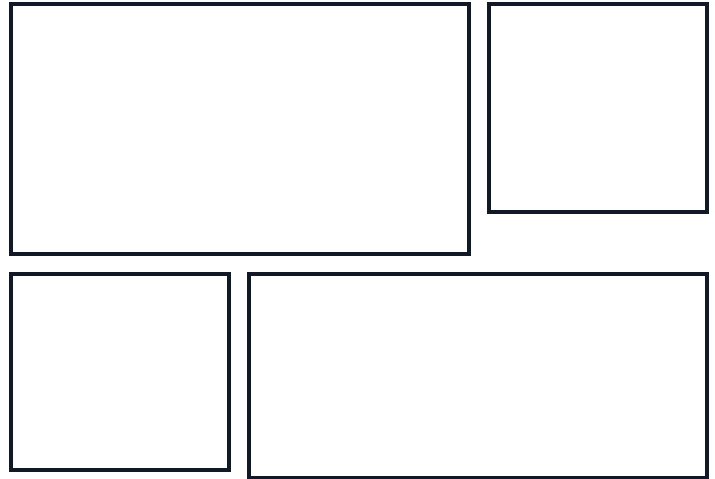

Four grids, four different tempos. Pick the one that matches the beat.

comicink.ai  
Free template

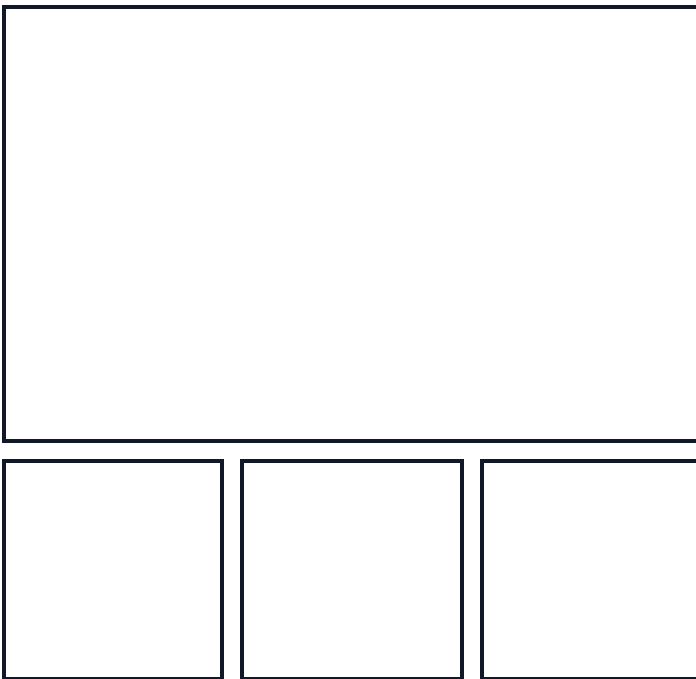

## REGULAR GRID – NEUTRAL

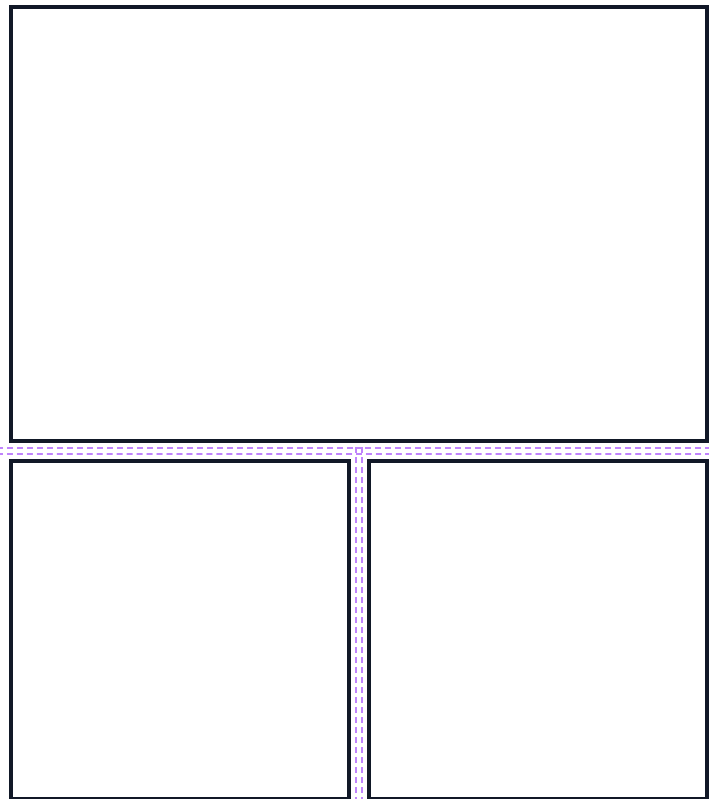

## IRREGULAR – EMPHASIS

## SPLASH WITH INSETS

## FULL BLEED

Dashed line = trim edge. Art must run past it.

**Choosing one.** Panel size is pacing, not decoration. A reader spends time on a panel roughly in proportion to its area, so a big panel is an instruction to slow down. Lay out the page before you draw anything in it.

# BLANK GRIDS

Two empty pages to lay out on.
